The primary goal of the MSU Counseling Center is to promote students' personal development and psychological well-being. Counseling services are provided free of charge to currently enrolled Missouri State University students with a variety of personal, social, and life-planning concerns. Referral services are also available to others free of charge.

Initial consultations lead to a personalized care plan for current MSU students.

For more information about our current staff members, resources, programs, and to request a presentation please visit our website:
