

Our Mission: Supporting student wellbeing, development and success.

Under our mission we promote the following ideals

*Student Self-Acceptance
Development
Positive Connections through Ethical and Collaborative Processes for Change*

Our Core Values

*Cultural Consciousness and Identity Development
Compassion, Acceptance and Respect
Resiliency and Prevention
Goal Development and Creative Problem Solving
Competency and Integrity
Support and Being a Catalyst for Change
Altruism and Service*

Our Goal:

The primary goal of Missouri State Counseling Center is to provide preventive and therapeutic mental health services for the university student community.

CLINICAL SERVICES

Monthly Clinical Contacts

July 2021 - June 2022

In 2021-22, clinical staff provided 5,796 clinical service hours to students. Clinical services include:

- Consultations
- Intake assessments
- Individual counseling
- Couples counseling
- Crisis interventions

Counseling Sessions Provided

July - June

Individual Students Counseled

July - June

The Counseling Center experienced another year in high student demand for services. Counseling center staff provided 5,569 individual and couples sessions and counseled a total of 1,275 MSU students during FY 22. Since 2010, there has been an over three-fold increase in the number of students seeking counseling services. Primary areas of treatment include:

- Anxiety (77%)
- Relationships (54%)
- Depression (54%)
- Academics (45%)
- Suicidal Thoughts/Plans (25%)
- Eating Concerns (28%)
- Substance Use (23%)

Other: Self Injury (18%), Financial Concerns (12%), Abuse: Physical, Sexual, Emotional (17%), Trauma (27%), Grief/Bereavement (17%), Work Issues (10%), Anger Issues (9%), Sexual Assault (10%), Crisis Adjustment (7%), Oppression (4%), Homicidal Thoughts (2%), and many others

CLINICAL SERVICES

Students in crisis are our #1 priority at the MSU Counseling Center. Students presenting in crisis have been on the rise since 2010, however, the center has experienced a significant increase in the number of crisis appointments over the past three years, compared to previous years. This is in part due to changes made in how the center schedules intake and crisis appointments, contrasted with previously managing all appointments on a walk-in basis.

Direct vs. Indirect Clinical Utilization

Direct, face-to-face clinical services include one-on-one and couples counseling, crisis intervention sessions, consultations and supervision. Indirect services include case management, clinical preparation, meeting attendance, administrative time, training preparation, professional development and many other miscellaneous duties.

CCAPS DATA RESULTS

In order to provide a clearer understanding of student symptom changes from session to session and to assist in providing outcome measurements data for improved services, the MSU Counseling Center began administering the Counseling Center Assessment of Psychological Symptoms (CCAPS) during the spring semester of 2017. MSU's Counseling Center, along with over 160 college and university counseling centers across the U.S. are compared in the graph below, including 207,818 unique college students seeking mental health treatment; 4,059 clinicians; and 1,580,951 appointments.

MSU Counseling Center CCAPS Positive Change Rates for Elevated Symptoms

The data reveal that for students who present with elevated symptoms, MSU Counseling Center's effectiveness in reducing elevated symptoms is in the 63rd percentile for depression, 88th percentile for generalized anxiety, 93rd for social anxiety, and 92nd percentile for alcohol use.

PROTOCOL

For after-hours and weekend mental health emergency support, the MSU Counseling Center contracts with ProtoCall Services, Inc., the nation's leading provider of seamless access to crisis assessment, intervention and stabilization assistance provided exclusively by Masters and Doctoral-level clinicians. During 2021-2022, a total of 156 calls were managed through ProtoCall.

STUDENT SATISFACTION and LEARNING OUTCOMES

The Counseling Center CAS Review identified the need for Learning Outcomes for the counseling experience. Therefore, the counseling staff has identified 4 specific learning outcomes that are currently being measured in the student satisfaction survey, and are reflected in the following graphs:

1. Increase self-knowledge/self-efficacy
2. Identify personal areas of improvement
3. Develop skills needed to deal with presenting problems
4. Develop skills needed to maintain academic progress

Counseling helped me increase my self-knowledge and/or self-efficacy.

Counseling helped me develop skills needed to cope with my concerns or problems.

Counseling contributed to my academic success or progress.

Counseling helped me identify personal areas for improvement or change.

Student survey comments:

"A wonderful program that I needed to get through this semester."

"Amazing service! Thank you!"

"I am so thankful for counseling"

"I found a new appreciation for therapy and counseling in general."

"I would not have had access to counseling outside of MSU, thank you"

"I've made a lot of progress as a result of getting counseling."

"Really appreciate the help working through my issues"

"Seeking help made me feel comforted and safe."

"Thank you so much, the counseling center was VERY helpful to me!"

Overall, I am satisfied with my experience at the counseling center.

*The above percentages are based on 229 students surveyed.
